EDUCATION

A.K.T.U

Btech in computer science & engineering
Oct-2015-Oct-2019 | Greater Noida
,U.P. | C.G.P.A: 7.2

C.B.S.E

May-2014 | Class 12th: 69%

May-2012 | Class 10th: 84%

SKILLS

Technical Skills

- React.js
- Javascript
- Json web-token
- Graphql
- Html5
- Css3
- Next.js
- Redux
- Node.js
- Restful Api
- Mongodb
- Nextjs

Tools And Libraries

- Vs Code
- Git/GitHub
- Bitbucket
- Mongodb Compass
- Postman
- Npm

PERSONAL PROJECTS

My Portfolio

- Designed and developed my personal single-page application with react.js
.
- Hosted Link:- https://shorturl.at/ryPS1

Kanban Ui

- A simple and responsive ui for kanban board.
- Implemented using React.js, ant-design.
- Having functionality to drag and drop tasks/tickets as per their current status.
- Hosted Link:- https://shorturl.at/delq6

ABOUT ME

Experienced full-stack developer with expertise in the development, testing, and maintenance of software systems, including programming and debugging. I thrive on turning design concepts into web applications. My strong, domain knowledge, communication skills, learning the latest technologies, and ability to adapt to various project requirements make me an asset to any development team.

WORK EXPERIENCE

Fullstack Developer   Anubudh EdTech

Oct-2022 - Present

Best Payment Solutions: https://www.bestpayment.solutions/

- Managing jira tasks with my team.
- Developing Apis as per the requirement using graphql, etc.
- Developing complex UI and backend logic for the client.
- Optimizing the performance of Apis by improving the mongo queries and writing high-quality code.

700+ Club Admin Panel: https://platform.700plus.club/

- Initiated the project setup by configuring routing,state management and layout based on Figma prototype.
- Developed different features for the client ex:- course- creation, quizzes creation, assigning students, and lot more.
- Brainstorming and helping team members.
- Continuous bug-fixing, code-reviews and integration.

HimcabIndia Portal: https://www.himcabindia.com/

- Developing a responsive and user-friendly website for client.
- Utilized modern web technologies (Next.js, Mui, Javascript).
- Integrated REST APIs.

Teaching Assistant   Coding Ninjas

Aug-2022 - Dec-2022

- Assisted more than 500 students in their coding journey.
- Solved doubts related to react.js, node.js, javascript concepts, css properties and setting-up of projects,
- Solved more than 700 doubts in span of 4 months.
- Got the title of Ninja TA with 4.7/5 rating.

Fullstack Web Developer Trainee   Coding Ninjas

June-2021- Sept-2022

- Gained practical experience in web development by developing various projects. Learned different principles of web development.
- Completed all the assigned tasks within the deadline.
- Building API for the team using Nodejs.
- Developed simple UI for the projects using Reactjs, HTML, CSS, and JavaScript.
- Provided assistance to my team in solving bugs.
